

SONU KUMAR

Frontend Developer

Hyderabad, India | +91 6305218584 | nsonukumar39630@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Self-taught Frontend Developer with a strong foundation in React.js and Next.js, backed by working knowledge of the full MERN stack. Independently designed and deployed four production-ready applications, including an AI-powered recipe platform and a full-stack social networking app with real-time messaging, demonstrating strong problem-solving skills and the ability to build end-to-end products from concept to deployment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Web Technologies: HTML5, CSS3, JSON

Frontend: React.js, Next.js (App Router), React Router, Redux Toolkit, Context API, Tailwind CSS, shadcn/ui, Responsive Design

Backend: Node.js, Express.js, REST APIs, MVC Architecture, JWT Authentication, Socket.io, Mongoose, Multer, bcrypt

Databases: MongoDB, PostgreSQL (Neon DB), MySQL

Tools & Platforms: Git, GitHub, VS Code, npm, Postman, Axios, Vercel, Render, Clerk, Cloudinary, Arcjet, Supabase

APIs & Integrations: Google Gemini API, MealDB API, Stripe API, MapTiler API

PROJECTS

Chef AI — AI-Powered Recipe & Pantry Management Platform

[Live](#) | [GitHub](#)

Next.js, Gemini AI, Neon DB, Clerk, Arcjet, MealDB API, shadcn/ui, Tailwind CSS

- Built an AI-powered recipe platform that helps users discover recipes from ingredients they already have, reducing food waste while providing complete nutritional breakdowns (protein, calories, and nutrients).
- Integrated Google Gemini AI for step-by-step recipes with full macros, plus a pantry feature where users photograph ingredients and AI suggests instant recipes; added save-recipe and PDF export.
- Implemented Clerk v7 auth with Free/Pro tiers, Arcjet rate limiting, and a responsive mobile-first UI with Tailwind CSS; deployed on Vercel with Neon (PostgreSQL) and MealDB API for cuisine data.

ProNet — Full-Stack Social Networking Platform

[Live](#) | [GitHub](#)

MERN Stack, Socket.io, Redux Toolkit, JWT, bcrypt, Cloudinary

- Built a full-featured social networking platform with bio, skills, education, work experience, profile photos, post creation with likes and comments, and 24-hour story uploads with view tracking.
- Implemented a connection system allowing users to search profiles, send/accept friend requests, chat one-on-one in real time using Socket.io, and receive live notifications for likes, comments, and requests.
- Designed secure JWT authentication with bcrypt password hashing and protected routes, managed global state with Redux Toolkit and integrated Cloudinary for image storage.

Cartify — E-Commerce Platform (Frontend-Focused)

[Live](#) | [GitHub](#)

React.js, Tailwind CSS, Supabase

- Built a fully responsive e-commerce platform with filtering, search, sorting, pagination, and infinite scroll for smooth product discovery.
- Designed complete cart and wishlist functionality with real-time quantity/price updates and item add/remove, plus a multi-step checkout flow with delivery details and order summary.
- Integrated Supabase for authentication and persistent storage of cart items, wishlist, and order history per user.

TripTide — Airbnb-Inspired Property Listing Platform (Backend-Focused)

[Live](#) | [GitHub](#)

Node.js, Express.js, MVC Architecture, Cloudinary, MapTiler API

- Built a property listing backend following MVC architecture, with full CRUD operations for listings (title, description, pricing, images), owner-only edit/delete authorization, and hashed-password authentication.
- Designed a review/rating system with star ratings, category-based filtering (camping, budget, luxury), Cloudinary uploads, Map API location display, and EJS/Bootstrap views tested via Postman.

EDUCATION

B.Com (Computers) — 2022 – 2025

St. Mary's Centenary Degree College, Hyderabad

MERN Full-Stack Development — Delta 7.0 — June 2025 – December 2025

Apna College | HTML, CSS, JS, React, Tailwind, Redux, Express, MongoDB, REST APIs, MVC

Open to: Frontend & Full-Stack Internships | Junior Frontend Developer Roles | **Languages:** English, Hindi, Telugu
